## Cylindrical Conveyor Brush

10" Brush Diameter, 14" Overall Length, 12" Brush Length

In stock

\$251.64 Each

7437T74

Overall Length	14"
Brush Length	12"
Bristle Diameter	0.035"
Additional Specifications	10" Brush Dia.

With polypropylene bristles in a tight spiral pattern, these brushes are effective for cleaning conveyor belts and chain. Bristles are black. The larger the bristle diameter, the stiffer the bristles.

Bristles are mounted on a steel tube and include set screws for securing to a 1" diameter shaft (shaft not included). Maximum temperature is 200° F.
